Cryptocurrency and bitcoin investors world wide.

It doesn't matter if you are an expert or a beginner. If you have a passion for trading bitcoin and cryptocurrency let us show you an advanced AI platform that is automated where you can earn up to 80% in profits! See below our mission statement and if you are interested to learning more you may contact me on what's app 832.764.6105 or send me a direct message. Looking forward to talking to you soon!

The prime mission of Mosaic is to revolutionize the way that independent and institutional investors are able to exchange and invest their money in the cryptocurrency market via our multi-platform approach. Our exchange combines all of the top global exchanges, such as: Binance, Bittrex, Kucoin, and over 20 others, and creates a fluid trading zone all in one place, allowing investors access to over 2,800 different coins. All investors can follow their favorite traders and organizations and select from a number of trading strategies and options, thus allowing the non-professional trader an opportunity to sit back and watch the growth of the account. Investors,

We are happy to announce to you that Mosaic Exchange has introduced the most advanced AI trading software in the industry to leverage the Cryptocurrency markets. Working in conjunction with our trusted partners, Bitmex and Binance, our AI Machine learning platform is plug and play for institutional and individual investors alike. We wanted to be sure to include you.

Mosaic acts as a Digital Asset Bank Account and we allow clients to Copy-Trade professional AI algorithmic trading strategies and collect 80% of the profits.

Contact me to learn more by direct message or email me at  
[Osman.mosaicexchange@gmail.com](mailto:Osman.mosaicexchange@gmail.com)

Investors,

Mosaic Exchange is a SaaS platform that connects professional trading algorithmic strategies, with people who don't know how to trade cryptocurrency or bitcoin but who want a safe and substantial return.

Just like a bank account, one deposits their money and lets it sit. But with Mosaic that money grows at a great rate and 80% of the profits stay in the Owners Account.

If you would like to learn more about this opportunity please send all inquiries to [Osman.mosaicexchange@gmail.com](mailto:Osman.mosaicexchange@gmail.com) or send me a direct message. #investor #bitcoin #cryptocurrency #trader

I am looking forward to hearing back from you soon!

ARE YOU BORROWING TOO MUCH MONEY 🏠 FOR YOUR BUSINESS 🏠?  
THE RECENT # OF VEHICLE 🚗 FINANCING IS ALARMING 🚨!!!

I read 📖 that recently more people 🏠🚗🏠 are borrowing money 🏠 to buy vehicles 🚗 than ever before.

This is a particular problem because vehicles are generally a depreciating 📉 asset - they're no only worth less money as soon as you buy them, but they become less valuable over time 📉

This is alarming because people are borrowing money to buy things that will be worth less money

The economic crisis of 2008 was due, in part, to over-borrowing for real estate 🏠 which is an assets that (usually) appreciates over time. Still, the market crashed.

People are now borrowing for assets that usually depreciate over time.

That's very dangerous.

Are you borrowing too much money 🤖 for your business?

Make certain that you borrow only what you need - and not more!

To do otherwise, could cause major headaches for both you and your business.

To find out more, watch the video below 📺📺📺📺

IF YOU HAVE A QUESTION ???, OR WOULD LIKE ME TO COVER A SPECIFIC TOPIC IN A VIDEO 📺, PLEASE COMMENT OR MESSAGE ME.

I look forward to hearing from you.

**BREAKFAST & SUPPS!**

- Buffets have a TON of unhealthy options at all inclusive resorts buttttt they also have a ton of healthy options too!
- One of the supps I alwaysssssss pack with me are my digestive enzymes! This really helps with bloating which is clutch when you're in a bikini all week 🍷 I take 2 before meals.
- This is my go-to breakfast pretty much every time I'm at a buffet:
  - Eggs (yes the whole egg - the yolk contains the bulk of the nutrients).
  - A couple slices of bacon because who doesn't love bacon (portion control is key here).
  - Fresh fruit instead of pastries for a more natural form of sugar that will satisfy that sweet tooth!

I know, I practically live in airports now 🙄🙄🙄

BUT— it's because of my amazing support system that I am able to accept the projects I take on and travel the way I do

When I first started my business, I did not have the support system I have today, I had to:

👉 Distance myself from people that weren't adding value but more so, serving as a distraction or deterrent.

👉 Be vulnerable in my interactions with you all here on LinkedIn because it allowed me to discern who should be in my circle. It wasn't easy 🙄

👉 Listen to feedback as I was growing and knowing what I should apply now versus later.

👉 Having a strong support system and continuous networking keeps me in this growth stage where I rarely feel stagnant because I always feel there's something for me to learn.

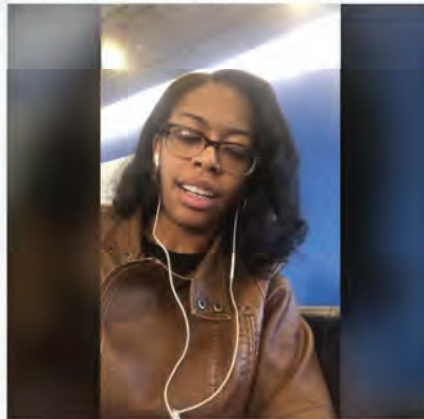

👉 For many companies, their employees are an untapped support system because they do not invest in their people. Employees are a vital piece of the backbone for a business.

👉 As I prepare to bring on people to help and grow with me, I'll practice what I preach. If you have a team, I hope you do too!

👉 Tag your LinkedIn support system in the comments!!

I am looking for Referral Stock Loan Associates who have a book of business for stock loans/block sale trade inquiries. We are a Direct Lender offering loans against publicly traded securities owned by individuals or corporations. Every deal that is closed you can earn 2-6% of the loan amount. Our loans range from \$100,000 to \$500,000,000 and close with 2-4 weeks.

As a referral stock loan associate you will be responsible for your own lead generation we do not supply leads. I am looking for result oriented financial sales professionals who are established where they can simply submit information and fund their deals. If that is you let's set up a day and time to talk. All inquiries must be sent to [osman.america2030@gmail.com](mailto:osman.america2030@gmail.com) Looking forward to working with you. Have a great day!

Can someone working at Samsung please identify this employee, Joseph, and let him know about this moment?

Copied from Facebook:

Last night, while waiting to board our plane, @carterjean... was being her usual inquisitive self wanting to meet and say "hi" to everyone she could, until she walked up on this man. He reached out and asked if she wanted to sit with him. He pulled out his tablet and showed her how to draw with it, they watched cartoons together, and she offered him snacks. This wasn't a short little exchange, this was 45 minutes. Watching them in that moment, I couldn't help but think, different genders, different races, different generations, and the best of friends. This is the world I want for her.

In a country that is continuously fed that it's so deeply divided by beliefs, I want her life to be filled with moments like this... not liberal or conservative republican or democrat, socialist or capitalist, just HUMAN.

Joseph from @samsungus in Oklahoma, if this should happen to find you. Thank you for showing my daughter what kindness and compassion looks like. Continue to shine your light in the world. #HateIsLearned #LiveWithPurpose #BeRelentless

Here are some main reasons for stock loans

1. Real estate opportunities  
second home, bridge loan or invest in commercial property.
2. Start a business.  
seed capital to grow a profitable company.  
Inject a capital infusion cash-flow shortage.  
day-to-day expenses. Use funds for working capital or to pay for inventory.
3. Pay taxes.  
Avoid paying a penalty or interest to the IRS.
4. Finance any major purchase. Would you like to buy a new automobile? Thinking of doing a home renovation?

Investors, are you looking to sell your shares and put your money into Real Estate? We have the best solution that will help you save money by avoiding to pay capital gains. Our stock loan program will allow you to borrow up to 80% LTV and keep your financial goals and objectives in tact. No credit check No personal guarantee required. It's the easiest way to getting the cash you need to making the bid or using the funds for repairs and updates on your next real estate project.

Also, if you want to liquidate your shares we can give you max dollar up to 90% LTV!

We can also look at penny stocks as well for both scenarios.

To get started I just need the following four questions:

1. Stock Symbol
2. Stock exchange
3. Number of shares to be pledged
4. Desired loan amount

Put your money into good use today! Contact me to get your free quote!

God wants you to wait patiently for Him to answer your prayer, but He also wants you to wait expectantly. Have faith! Trust God to hear and to answer. When you wait expectantly, you demonstrate that you believe God's promises; you believe He is going to keep His word.

Investors, Are you looking for an Exit strategy? Contact me today by sending me a direct message or post a comment with contact information.

**Cross-Border M&A Professionals**  
USA, Canada, European Union, Western & Eastern Europe, Asia, Pacific, Middle East

**QUICK STOCK LOAN AT 0% AGAINST PUBLICLY TRADED SECURITIES**

**ALTERNATIVE EXIT STRATEGY**  
In cooperation with international financial institutions, we can offer you quick cash against your stocks. Ideal for low volume, illiquid stocks or less attractive stocks. We will be able to offer:  
- Enter proceeds will take place in tranches in 3-5 weeks.  
- All publicly traded companies in the world are eligible.  
- Tax Transfer to Lender required.  
- Up to 95% LTV within 30-45 days and balance up to 90% LTV within 3 years.  
- Lender slowly disposes of stock and pays borrower in several tranches.  
- Zero % interest payable to lender.  
- Lender will actually pay annually to borrower up to 7% per year for up to 3 years on the difference between 95% LTV and 90% LTV.  
- No insurance, no personal guarantee.  
- Fully confidential and private.

It's an excellent way to dispose of stock in privacy and secrecy without reporting requirements on a sale. Loan documents are structured as a loan.  
This is a great way to strategically exit stock for some borrowers where traditional lending is not an option or not appealing. Higher LTV is offered with this structure.  
Since many stock owners are looking for exit versus a loan seeing this purely as an exit strategy, this option provides to borrow up to 90% LTV.  
Funds can be used to borrower anywhere.

**WE CAN FACILITATE STOCK LOANS, BLOCK SALES & STOCK LIQUIDATIONS**

WHAT IS A PENNY STOCK?

We are told all securities that trade for less than \$5.00 are Penny Stock. However, there are exceptions:

- Securities of issuers that have net tangible assets greater than \$2 million if they have been in operation at least three years are not Penny Stocks.
- Securities of issuers that have net tangible assets greater than \$5 million if in operation less than three years are not Penny Stocks.
- Securities of issuers with average revenue of at least \$6 million for the last three years are also not Penny Stocks.
- The security is registered, or approved for registration upon notice of issuance, on a national securities exchange that has been continuously registered as a national securities exchange since April 20, 1992.

Penny Stock Rules

Penny Stock Rule provides that a broker cannot sell a Penny Stock to any person unless it has approved that person's account for penny stock transactions and the broker/dealer has received in writing from customer agreement to the transaction.

Today, I wanted to share the 7 steps on how you can get funds from your stock portfolio.

STEP 1  
Borrower provides ticker symbol, stock exchange, desired loan amount and number of shares to be pledged.

STEP 2  
A written Term Sheet is provided outlining lenders terms. Borrower signs the Term Sheet and submits together with copy of Brokerage Statement and photo ID.

STEP 3  
Lender issues a Know Your Client (KYC) form for borrower to fill out.

STEP 4  
Lender prepares the Loan Agreement for borrower to sign. Loan Agreement is signed by borrower and lender.

STEP 5  
Upon execution of Loan Agreements, the lender and borrower make arrangements to transfer borrowers securities to lender or to custodian bank/transfer agent.

STEP 6  
If a custodian is used, then a 3-way agreement is signed by borrower, lender and custodian and a "Closing Statement" is prepared. Client deposits the shares with custodian bank/transfer agent or with lender.

STEP 7  
Lender wires the funds to any account in any country that borrower chooses. Borrower is in possession of funds and may transfer elsewhere or withdraw. The lender does not control use of funds or the country that borrower chooses to receive funds at.

Trisuli Financial Advising Launches New Firm with XY Planning Network

**FOR IMMEDIATE RELEASE**

Early 90s November 14th, 2018-Trisuli Financial Advising, a new financial planning firm founded by Scott Vance is opening this month with the help of XY Planning Network (XYPN), the nation's leading organization of fee-only financial planners serving Generation X and Generation Y clients. In addition to Gen X & Y, Trisuli Financial will also operate in full with a military background and focus. "Having experienced military service, I understand the unique financial concerns and opportunities you face," said Scott Vance.

Scott Vance joins the industry after 15 years working as an enrolled agent and prior planner. Scott also retired from the Army with a decade of service to the United States through working in the financial planning field. He is a candidate for CPA certification having passed the exam and is fulfilling the work requirements. In addition, he has begun to fill for the CPA exams and hopes to complete his last exam in the coming year.

XY Planning Network kicked off a movement in 2014 to make financial planning accessible to the underserved Generation X and Generation Y populations by using a monthly subscription model rather than the traditional hourly fee-based model (AFM) compensation structure. Charging a fixed fee hourly for the present advisors seek to the best interest of clients rather than the present gain. As a member of XYPN, Scott Vance was required to sign a fiduciary with sound client membership standards.

XY Planning Network offers a virtual community for new and established financial advisors, providing members with invaluable support in areas such as compliance, marketing, and business coaching. Additionally, members benefit from a wide range of technology solutions to support their firms.

**Trisuli Financial Advising Launches New Firm with XY Planning Network**

**FOR IMMEDIATE RELEASE**

Gary, NC—November 14, 2018—Trisuli Financial Advising, a new financial planning firm founded by Scott Vance, is opening this month with the help of XY Planning Network (XYPN), the nation's leading organization of fee-only financial planners serving Generation X and Generation Y clients. In addition to Gary & T, Trisuli Financial will also specialize in sales with a military background and have "having experienced military service, I understand the unique financial reserves and opportunities you face," said Scott Vance.

Scott Vance joins the industry after 12 years working as an investment agent and prior planner. Some other retiring from the Army Scott decided to continue working through working in the financial planning field. He is a candidate for CFP® certification having passed the exam and is fulfilling the work requirement. In addition, he has begun to sit for the CPA exam and hopes to complete his first exam in the coming year.

XY Planning Network kicked off a movement in 2014 to make financial planning accessible to the underserved Generation X and Generation Y populations by using a monthly subscription model rather than the traditional Assets Under Management (AUM) compensation structure. Charging a fixed or hourly fee versus advisory work on the best interest of clients rather than for personal gain. As a member of XYPN, Scott Vance was required to sign a fiduciary oath, among other membership standards.

XY Planning Network offers a critical community for new and established financial advisers, providing support with valuable support to areas such as compliance, marketing, and business coaching. Additionally, members benefit from a wide range of technology solutions to support their firms.

Today I want to talk about the three C's of financing. Over the years, as a Financial Loan Specialist, I have worked with several businesses from start-ups to multi-national corporations. Here is the secret for your business to become lendable. The business should have one or more of the three C's: 1. Credit. Business credit allows you to have a debt rating and develop a credit profile like large corporations that makes a business lendable using business EIN only. 2. Cash Flow. If your business has good cash flow and your debt service ratio (DSR) is above 1.15, then lenders will be attracted to financing your business. 3. Collateral. This area is unique in which many businesses don't have enough value to cover the desired loan amount since most lenders consider business furniture, fixtures, and equipment only. However, you can also get financing from your stock portfolio! Our company, America2030 Capital, takes pride in servicing corporations to individual investors all around the world to help them achieve their financing goals and objectives. We can fund transactions from 100k-500 million dollars. There is no credit check or piles of documents to fill. It is a simple, streamlined process. For more information, contact me today!

I wanted to share our FAQ with anyone who is interested in a stock loan. This information is from our website at [www.america2030.net](http://www.america2030.net).

Contact me today to get you a free quote by providing the four pieces of information:

1. Stock symbol
2. Stock exchange
3. Number of shares to be pledged
4. Desired loan amount

**FAQ Stock Loans**

**What exactly is a stock loan?**  
This is a loan where you use 50% owned stocks of a publicly traded company as the collateral. It is a publicly traded company only. The company might be large or small, but it is a publicly traded, not private, and unlisted.

**What will I be able to do?**  
There is a maximum amount. The amount of the loan will be limited to the value of the stock.

**Will you need a down payment?**  
Yes, there is a down payment for this type of loan. There is no reason to. The loan is applied to the stock, not the cash.

**How much can I get on a single number of shares?**  
The loan to value ratio will be determined by a few factors like liquidity and the price of the stock. Our loan-to-value ratio is a loan-to-value ratio of up to 80% for many stock loans.

**How high is the interest?**  
Not high at all. It will be between 3% and 5% depending on the security and the factors discussed above.

**What will be the term for my loan?**  
The loan to value ratio will be determined by a few factors like liquidity and the price of the stock. Our loan-to-value ratio is a loan-to-value ratio of up to 80% for many stock loans.

**Will you need to pay the money?**  
If you need money, then the process is simple. Funds are transferred and you can do as you please.

**How long will I get the money?**  
Then in three weeks at maximum. The stock loan process is a very simple process.

**What will happen to my stock allocation?**  
The shares remain allocated until you default and the lender has to recover the loan. Therefore, as initially stated, the shares remain allocated until you default on the loan. Lender may also choose to put the allocation to offset the interest due on the loan.

**What happens if I cannot repay the loan?**  
In this case, the lender liquidates the shares. This action does not affect the borrower's creditworthiness. The lender will not receive against the stock, not just personally.

**Will I own my stock until I repay the loan?**  
The shares will be sold only in the event of a default. The shares will not be repossessed and traded or repurchased.

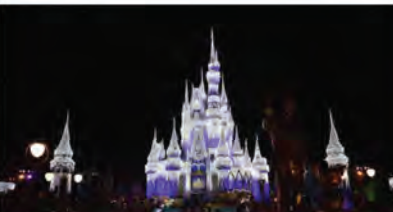

**What if the value of my stock falls?**  
This is a risk but only to the extent that it is in the case of non-volatile stock, the lender placed a limit on the borrower for the amount in excess of the value of the stock.

**Are there hidden costs?**  
No hidden costs whatsoever. A borrower can be a very safe and independent person.

If you are a stock broker, financial advisor or wealth advisor then we can work together to helping your clients. We are a direct lender offering 4.5%-7% loans against publicly traded securities owned by individuals or corporations. Up to 80% LTV. Your firm can earn 2%-6% fee of the loan amount paid at time of closing. Entire process is about 2-4 weeks. Almost all publicly traded securities are eligible. The securities must be in electronic form and unrestricted. Paper certificates not eligible. See attached Teaser/Term Sheet for conditions. Fast and simple process. You've heard of quick loans against car titles. These are quick loans against publicly traded securities. If you have clients who can benefit, please contact us for an NDA/Agreement which addresses your fee. Securities are deposited with custodian during the loan and not with the lender. Over \$2 billion in stock loans secured to date. Average loan typically is \$3M-\$30M so that works out to about \$60k-\$1.2M in fees to your firm. We do not charge application or upfront fees. You are all paid at closing. You make the client introductions, we handle the rest. Contact me to learn more.

You will continue to suffer if you have an emotional reaction to everything that is said to you. True power is sitting back and observing things with logic. True power is restraint. If words control you that means everyone else can control you. Breathe and allow things to pass.

Super excited about the value focused videos I recorded the past few days with our partner agency in Toronto!

Going to be taking about the changing landscape of B2B sales and how to overcome the challenges business leaders and entrepreneurs face around "tech team and time" in the sales process.

Here's a sneak peek...more to come soon!

Would love to hear your thoughts...of the 4 "buckets" I mentioned in this video...what is the most challenging for you?

OK, I need this question answered because I just don't get it. If we are in a serious driver shortage, why are so many trucks being purchased? Yes, the article said a new truck helps with recruiting but does it help that much? Just curious really. Would love some insight...

Another main reason could be a bill was suppose to be submitted to save commercial truck owners don't have to pay tax on a purchase of a new truck which is around 12% that's an estimated savings of 12k-22k. I am not sure if it is passed now. In June the bill was repeated.

Why do you think servant leadership matters?

The concept of servant leadership should trickle down. Unfortunately a select many people into leadership positions who have never participated in any form of leadership. This is why most leaders pursue their personal interests and fail to look at the bigger picture of how to serve communities.

#WednesdayWisdom:

Reminder to never give up on your ideas and dreams! You will be turned down. A few tips to keep going:

- ✔ Be persistent
- ✔ Make another call to a bank
- ✔ Meet with the right decision maker
- ✔ Pick up the phone
- ✔ Don't quit too soon
- ✔ Listen to your gut
- ✔ Ask for help
- ✔ Find A Way!!!

#CRE #RealEstate

If Howard Schultz gave up after being turned down by banks 242 times,

there would be no

If Walt Disney quit too soon after his theme park concept was trashed 302 times,

there would be no

If J.K. Rowling stopped after being turned down by multiple publishers for years,

there would be no

One thing is for sure:

If you give up too soon, you'll never know what you'll be missing.

Keep going and NEVER quit.

Hello,

My name is Osman Qureishi and I help new and existing business owners to become lendable using Business EIN without the use of personal SSN. Our business program provides key components to making your business lendable, which includes establishing a business credit score and DSR rating. This will give the investor information from your business performance and financial data. Your business EIN will be able to secure vendor lines, revolving lines, and corporate credit lines.

Todays a lot of business owners have reported their personal financial decisions like purchasing a home, vehicle, college loans or any other important aspect of their lives by taking on business debt. The beauty of our program is that it will separate your personal and business credit, which will allow the freedom of accomplishing both personal and business goals.

Here to build for thought. The owner of Walmart walks into a bank and needs funds for their business. The owner does not provide their SSN. The bank does not pull up their personal credit to determine if they qualify for a loan. Walmart has a credit profile which includes an order score and business rating that shows the financial institution how the company performs and manages debt. You can have the same opportunity use these large corporations by enrolling in our program. I am inviting you to go to our website and check out what real people have to say!

**GET CREDIT FOR YOUR EIN THAT'S NOT LINKED TO YOUR SSN**

Get business credit for your EIN that's not linked to your personal SSN with no personal credit check and no personal guarantees.

**Establishing business credit provides you a lot of benefits, including:**

- Build business credit regardless of your personal credit quality. You won't have to get a personal credit check required for approval.
- Get business credit even when you can't qualify for business loans. Because 419's is not tied to your personal credit.
- Quickly secure business credit by getting trade credit immediately. High-level debt credit cards within 48 hours. Fast and cash credit and auto vehicle financing shortly after.
- Get business credit with no personal liability. Because 419's is not tied to your personal credit.
- Separate your personal and business credit and get your commercial accounts reporting on your business credit report with Dun & Bradstreet, Experian, and Equifax.
- Get approved for business bank loans. Because your commercial credit quality determines if you're approved, how much you'll be approved for, and the terms you'll pay.
- Get business credit when on a startup and gain a competitive advantage while increasing the value of your company.

For 419, credit is not on business credit. It's on your personal credit. That's why we can't give you a personal credit check, and we can't give you a personal guarantee.

Contact us today to learn more about getting business credit for your EIN that's not linked to your personal credit!

The single most important variable in your life, in your company's life, in your personal life, in your belief of WHY things go the way they do in life is WHY you do what you do not flow or not what but WHY.

If you are launching an ICO and you do not know WHY, you will fail.

If you are an advisor and you do not know WHY you are with the group you are with or WHY you are doing it alone - you will most likely fail.

If you are an investor and you do not know which ICO's to invest in or WHY you are investing in - you will fail.

At Blockchain Advisory Council we give great care regarding each of these three pools of participants that cannot exist on their own and we create the synergistic combination that produces the greatest outcome of the combination of these three.

If you want to understand WHY then the Blockchain Advisory Council and its fantastic BAC members are waiting to take your call.

Quickly secure business credit by getting credit cards, immediately, high-limit, even credit cards without 60 days, past and cash credit and auto vehicle financing shortly after.

The SBA credit cards are business credit. Payments are 1% to 4% APR. No late fees. No annual fees. No credit check. And you'll have a credit line.

Contact us today to learn more about getting business credit for your EIN that's not listed to your personal credit!

The knowledge that I've gained over the past 3 days at the NACLB Conference & Expo in Orlando, Florida from Chris Hurd is invaluable.

Now it's time to put what I've learned into action, so that PTI Financial Group can better serve the small business owners throughout the Country.

The Financing You Need When You Need It

**Unsecured Business Line of Credit**

**Special Promotion!**  
**0% APR**  
**Up to 18 Months**  
**No Financials Required**

**Using Unsecured Business Lines of Credit**

When it comes to finding your best approach to cash flow management, you need a variety of financial products that are each designed to work for a specific purpose. One of the most flexible and foundational credit instruments you can establish is an unsecured credit line. These unsecured unsecured business lines of credit can be used to manage any necessary purchases up to their limit, which allows you to make sure the right people get paid when you need to do so. It can also give you the opportunity to establish the credit history you need to be able to access more substantial loan resources down the road.

I owned a US\$500 million global hedge fund when I decided to retire from Wall Street at 37 years old. On paper, I was on top of the world. I had everything in life and more. Inside though, something was missing in my soul. No one knew it, but I knew it. All of the money and material things in the world could never fill that void. I was not living my definition of success. I was living society's definition. I yearned to do something from my heart. My family and friends told me that I was stupid and crazy. My mom kept reminding me of the days we suffered together in poverty.

In life, we don't choose what we love.

Martial arts has been my greatest passion in life since I was a kid. I've been a student, a fighter, a teacher, and a coach for more than 30+ years. It has changed my life in so many ways. It has given me integrity, humility, courage, strength, discipline, compassion, honor, respect, and so much more. It has also given me a warrior spirit with which to conquer adversity in life. Above all though, it gave birth to my greatest dream in life: **ONE Championship**.

Ultimately, I'd rather risk failure for something I love than ensure success for something I hate.

Yesterday after a presentation, I go to the car park and my car wouldn't start. I go back in the building and asked if anyone could check it out for me. They instead said, you can wait here until your help arrives.

I am sitting downstairs flustered and the janitor asks what the problem is. I let him know and he said, "You are one of the few persons who told me good morning when you entered the building. Most of the people pass me like I don't even exist. I'll help you."

Those were the most beautiful words I heard for the day. Thankfully with the help of this 'jack of all trades' as he proudly referred to himself, I was able to get to my next meeting on time.

It just shows:

- Those who you expect to help you, may never do.
- You never know who you may need help from.
- Show respect to Everyone.

My friend's daughter, a brilliant, incredibly hard working student at a top university, spent the whole summer working in finance in NYC. She's psycho brilliant and super intense. A real hater in the making. And after working her ass off all summer and putting in 15+ hour days, she did not get an offer to come back next summer. Naturally, she is devastated. Take hope my young friends. I am here to tell you that I have experienced many of these devastating, soul crushing defeats on big things like this. When I was in college, I was selected to represent Cornell in the Rhodes Scholarship competition. And I lost. Talk about a huge L. Talk about gut wrenching. I felt like I let everybody down. Like I disappointed the University and everyone who believed in me. I was pretty miserable. But the reality of taking big shots is that you sometimes miss. It takes guts to take a big shot, lose, regroup and make another run at it. It sucks. I won't sugar coat it. You'll be miserable for a while. Because you really fought for it. You gave it your all. And the more you gave, the worse you'll feel. But the sun will rise. There will be a new day. There will be a new goal. Take a long view. Every champion must know defeat. Cream rises. Just get back up and keep going.

Sunday message: If you dread going to work tomorrow then I suggest looking for a new job. Life is too short to ruin your Sundays filled with dread. Life is too short to spend 8+ hours per day hating what you do. It makes no sense choosing to spend more than half your life doing something that makes you unhappy when you can consciously live a better life. Go for it. You can't get the time you lost back but you can start shaping your happy future now. You can do it!

Some Monday motivation for you all! It's easy to look at others and wish you had what they have, or be who they are. The key however is to look in the mirror and remember who you are and all the challenges you've overcome. Sometimes when I start to feel like things aren't going how I've planned and become flustered because "life" is happening and I'm only human and can not control everything. I have to step back and remember how far I have come in my own journey, no one else's. I reflect on the times where I've been unemployed, depressed, lost and miserable just like many of you at one point in your life. I don't let those dark times get the best of me. I have learned to only look back to see how far I've come.

I was laid off in 2010. I was just telling my now-teenage-son this afternoon how difficult those 6 months of unemployment were for me, but how I became a better person because of the depth of fortitude it took to not give up. And it also made me grateful for my job (no matter how tough the grind gets. The grind is a lot harder when you're not getting paid), grateful for today, and grateful for every success I've ever gained since then. I've been immensely more successful than I would have been if I had stayed where I was.

But it's allowed me to be empathetic too. Being unemployed doesn't mean you're worthless. It just means you're on the path of wisdom - of personal and spiritual growth. Don't expect anyone to bail you out. Do your due diligence dig in, and you will land on your feet, I promise.

Tax Court disallows numerous deductions and rejects taxpayer's blame of TurboTax. Remember that when you use TurboTax, you are entirely responsible for everything on your tax return. Don't underestimate the value of a good CPA!

If You Can Solve This Puzzle, Were Hiring - It's not always important to get the answer right the first time; it's about trying to solve problems.
